

What if every engineering student had a clear path
from **learning** → **earning**?

400

EGP ENTRY

5

SDGS ALIGNED

LIMITLESS POTENTIAL

THE PROBLEM

The "Practicality Gap" in Engineering Education

Three critical barriers preventing students from transitioning to real-world careers

Academic vs. Market

Students graduate with theoretical knowledge but lack hands-on skills

Resource Fragmentation

Materials are scattered; **90%** of students confirmed they "don't know where to start"

Inefficient Systems

Traditional, paper-based academic management causes delays and confusion

OUR SOLUTION

The Ultimate Engineering Career Roadmap

An integrated web platform replacing traditional systems with a structured digital experience

Career Roadmaps

Discipline-specific paths (Civil, Mechanical, AI, etc.)

Centralized Hub

One location for college data, curated courses, and academic resources

Administration Portal

Secure tools for faculty and professors to manage the educational process

COMPETITIVE ADVANTAGE

Why Assiut Robotics?

**Established Expertise**

A team with a legacy of innovation dating back to **2007**

**Validated Need**

Direct confirmation of the problem from our student cohort

**Inside Access**

Direct collaboration and contracts with faculty professors for high-reliability content

**Practical Edge**

Linking academic learning directly to freelancing and job placement

BUSINESS MODEL

Business Model Canvas

CUSTOMER SEGMENTS

3rd&4th year students, fresh graduates, and faculty members

VALUE PROPOSITION

"College-to-Career" roadmap focused on employability

CHANNELS

University Ambassadors, niche social media groups, and on-ground workshops

REVENUE STREAMS

Monthly subscription – **400 EGP** / Month

KEY RESOURCES

Active Technical Platform and a vibrant student community

FINANCIAL MODEL

Financial Model (MVP Phase)

INITIAL TRACTION

Current Cohort **32 Students**Monthly Subscription **400 EGP**Initial Monthly Revenue **12,800 EGP**

STARTUP COSTS

Launch Budget **80,000 EGP**

Domain

Redis DB

Hosting

Ads

SCALABILITY GOAL

Total for Full Maturity **100,000 EGP** 80%

Full platform maturity target

MARKETING STRATEGY

Marketing Strategy

**AIDA Model**

Capturing Attention and Interest through the "One-Stop" system concept

**Digital Channels**

SEO optimization, paid social ads, and educational content creators

**Physical Presence**

Banners, logos, and workshops at university and global events

**Academic Partnerships**

MoUs with universities, colleges & schools - including YLF network reach.

SUSTAINABLE DEVELOPMENT GOALS

Sustainable Development Goals (SDGs)

4

Quality Education

Bridging academic theory and industry practice

8

Decent Work

Digital workflows preparing students for the economy

9

Industry & Innovation

Digital R&D infrastructure showcasing ROV/AI

12

Responsible Consumption

Cloud system reducing carbon footprint

17

Partnerships for Goals

Connecting faculty for global innovation

TRACTION & GROWTH PLAN

Traction & Growth Plan

Active website live at assiut-robotics-website-xi.vercel.app**Phase 1** (Now)Launch within Assiut Faculty of Engineering
with the first cohort**Phase 2** (09/2026)

Expansion to all Assiut University colleges

**Phase 3** (03/2027)Scaling to Upper Egypt universities and YLF
network partnerships**Phase 4** (2027+)Regional leadership in robotics and
freelancing placement
